

Twin Polymerization – seminar (winter term 2015/16)

Friday, time: **9:15 am**; room: **B006** (Straße der Nationen 62, next to mensa)

date	speaker	working group	topic
27.11.2015	Thomas Ebert Martin Daniel Phleps	Polymerchemie Anorganische Chemie	A new triple-monomer Introduction and concept of research
18.12.2015	Sindy Oschatz	Polymerchemie	Functional twin monomers ENTFALLEN
15.01.2015	Lydia Wöckel	Polymerchemie	Polymerization of carbonates
29.01.2015	Felix Dannenberg	Koordinationschemie	Germanium and Silicon Compounds with Substituted 2-(aminomethyl)phenols and 2-(ethylamino)benzylalcohol: synthesis, characterization and formation of porous Ge@C
12.02.2015	Tina Windberg	Polymerchemie	Twin polymerization on surfaces
26.02.2015	Benjamin Mielke	Koordinationschemie	Phosphorous based potential twin monomers
11.03.2015	Daniel Uhlig	Polymerchemie	Combination of twin polymerization with the chemistry of isocyanates
25.03.2015	Matthias Birkner	Polymerchemie	to be announced
